

AMSOIL Gasoline Additive

AMSOIL Quickshot® is formulated to thoroughly clean varnish, gums and insoluble debris in two- and four-stroke gasoline-powered small engines and powersports equipment fuel systems, restoring peak performance. It effectively addresses performance issues related to ethanol, water and dirty pump gas, while stabilizing fuel between uses and during short-term storage periods.

PRODUCTS

Engines in powersports equipment are generating increased power from smaller designs, creating more performance-robbing friction and heat. Inferior oils quickly break down and lose viscosity, leading to deposit formation, plug fouling, accelerated wear and poor performance.

AMSOIL synthetic two- and four-cycle motor oils reduce friction and heat in powersports equipment. Their ability to deliver superior performance and protection is universally recognized by casual enthusiasts, dedicated riders and professionals worldwide.

AMSOIL Synthetic 2-Cycle Oils

AMSOIL INTERCEPTOR® Synthetic 2-Cycle Oil is formulated especially to provide exceptional cleanliness and help prevent exhaust power valves from sticking. It replaces original equipment manufacturer (OEM)-branded oils and provides superior performance in two-stroke oil-injected applications or as a 50:1 pre-mix.

AMSOIL DOMINATOR® Synthetic 2-Cycle Racing Oil features a robust formulation engineered to reduce friction and protect pistons and bearings subjected to the rigors of racing and hard driving.

AMSOIL hp Injector® Synthetic 2-Cycle Oil contains up to 30 percent more additives than other TC-W3 two-cycle oils for super-clean operation. It provides superior performance in all types of direct fuel injected (DFI), electronic fuel injected (EFI) and carbureted two-cycle personal watercraft, jet boats, snowmobiles, ATVs and motorcycles.

AMSOIL Synthetic Motorcycle Oil

AMSOIL Synthetic Motorcycle Oil provides long service life and maximum protection against engine wear. Its shear-stable formulation offers exceptional protection for high-performance engines, transmissions and primary chaincases. AMSOIL Synthetic Motorcycle Oil is available in 10W-30, 10W-40, 20W-50 and SAE 60 viscosities and is wet-clutch compatible. Recommended for Harley-Davidson, Honda, Buell, KTM, Ducati, Triumph and many other motorcycle applications.

AMSOIL Complete Line of Products

Additional AMSOIL products that offer superior performance and protection in powersports equipment include storage protectants, all-purpose lubricants, grease, antifreeze and more. Contact your independent AMSOIL Dealer for more information.

AMSOIL Formula 4-Stroke® Synthetic Motor Oils

AMSOIL Formula 4-Stroke Synthetic Power Sports Oil features a broad 0W-40 viscosity rating that provides superior hot- and cold-temperature protection in recreational four-stroke motors, including ATVs, dirt bikes and snowmobiles. It reduces wear and contains no friction modifiers for excellent wet-clutch compatibility.

AMSOIL Formula 4-Stroke Marine Synthetic Motor Oil offers exceptional wear protection and excellent low-temperature fluidity for four-stroke gasoline-fueled marine engines. It also guards against rust and corrosion. Certified to meet NMMA FC-W performance specifications, it meets "Warranty Certified" status of engine manufacturers and is recommended in outboard motors including Honda, Yamaha, Mercury, Johnson-Evinrude and more. It is excellent in marine inboard motors including Mercury (Mer-Cruiser) OMC, Volvo-Penta and more. Available in 10W-30 and 10W-40 viscosities.

AMSOIL Formula 4-Stroke Synthetic Scooter Oil is engineered to provide maximum wear protection and friction reduction in today's high-tech air- and water-cooled four-stroke scooters for long equipment life. Its friction-modifier-free formulation ensures wet-clutch compatibility and smooth clutch operation.

AMSOIL Accessory Products

AMSOIL Ea® Oil Filters feature full-synthetic nanofiber technology that provides superior protection for motorcycles, ATVs, four-stroke personal watercraft, snowmobiles and outboard motors. They last longer, stop smaller dirt particles and offer less restriction than conventional filters, extending equipment and filter life and improving performance. Many filters available in both black and chrome.

AMSOIL offers NGK spark plugs. Recognized for their durability and performance, NGK spark plugs are manufactured using top-quality materials to provide increased efficiency and superior ignitability.

AMSOIL Shock Therapy® Suspension Fluid is formulated for maximum stability and performance in high-performance forks and shocks. It controls friction and heat and significantly reduces wear and scuffing. Viscosity remains constant and foam and aeration are kept to a minimum, limiting shock fade and inconsistent dampening. Available in lightweight #5 and medium #10.
